PSC APPROVES WATER TERRITORIAL AGREEMENT

JEFFERSON CITY—The Missouri Public Service Commission has approved a water territorial agreement between Public Water Supply District No. 3 of Franklin County and the City of St. Clair which designates the water service territory for each in Franklin County in and around St. Clair, Missouri.

The Commission approved an agreement reached between Public Water Supply District No. 3 of Franklin County, the City of St. Clair, the Staff of the Missouri Public Service Commission and the Office of the Public Counsel. These parties had asked the Commission to approve the proposed territorial agreement.

The agreement states the territorial agreement will allow the joint applicants to avoid wasteful duplication of water services within the affected service areas. The agreement also indicates that the territorial agreement will improve the ability of the joint applicants to plan for future water service. It will enable customers to know who will provide their water service and will establish a method for the Public Water Supply District No. 3 of Franklin County and the City of St. Clair to amend their service territories in the future.

The territorial agreement will not result in a change of supplier for any existing customer.
